

Building a Healthy Community

Everyone has experienced the impacts of chronic conditions and diseases, whether from a family member, friend, coworker, or personal diagnosis.

At Alyfe, we are focused on helping people mitigate these risks by improving lifestyle behaviors.

Setting a foundation for care

Biometric screenings provide a baseline assessment of your employees' health status regarding health risk indicators. During the pandemic, we have seen significant advances in telemedicine utilization, however, the number of primary care visits rapidly declined. That is why Alyfe has prioritized partnering with employers this year to help employees obtain their biometric measures. Early intervention helps to guide individuals to changes that reduce overall risk.

Heart disease is the leading cause of death for men, and women.¹ Lipid panels provide information to understand the risks associated with heart disease.

In Ohio, screening is especially important as we are ranked 47th on the national health value dashboard from the Health Policy Institute of Ohio.

7.3 million Americans have undiagnosed diabetes.² Biometric screenings provide an opportunity to identify this condition and get help.

Alyfe is partnering with organizations to make biometric screenings easy and convenient and provide opportunities for populations to understand the importance of their biometric measures.

Your workforce, your way

We can bring testing directly to the worksite or offer remote collection options like provider forms, home test kits, or labs.

Clinical support at the worksite

Alyfe utilizes Registered Dietitians, RNs/LPNs as clinical experts and trusted resources at your onsite events.

Trusted experienced provider

Over two decades of experience covering the state of Ohio with a wide variety of public and private populations.

We make it easy for you

We manage the whole process from start to finish. Our coordinators do everything from coordination of locations to setting up scheduling and providing communications.

We make it easy for participants

Online scheduling, convenient times, and immediate results review make it easy for participants to participate at work.

Pricing options to fit your budget

We'll help you with the right plan to fit into those tight budgets. Processing costs through Anthem or MMO is available!

Vaccine Clinics

With the awareness around staying healthy, vaccines are more important than ever. As an approved provider of both flu and COVID-19 vaccines, we can incorporate a clinic into your Fall plans. This approach gives you an easy, cost-effective approach to keeping everyone healthy and your workforce productive!

“Alyfe listens to our needs and is accommodating, flexible, easy to work with, and tailors to our unique needs. This has positively impacted our culture of wellness within our organization.”
